

Flexo PET ReMix® - New, Random Construction

Our innovative construction process produces a unique visual effect while providing fuller coverage and enhanced protection. The same PET monofilaments we use for the FLEXO® PET grade sleeving come alive in these new color combinations. Use Denim, Fire, Camo, Desert Camo, & Jungle to add pizzazz to any place you use sleeving.

FLEXO® PET REMIX® (PTM) is braided from 10 mil polyethylene terephthalate (PET) monofilament yarns. The material has a wide operating temperature range, resists chemical degradation, UV damage, and abrasion.
